

Honeycomb boards

SWAP Sachsen

[Swap Sachsen](#) offers laminated and non-laminated honeycomb boards.

Tip: Already used by set construction: If you have primed the panels on both sides, you can simply paint or wallpaper them without them bending. Thickness from 5mm to 30mm.

This product needs pictures, more informations and testimonials form the field.

Re-board Technology

[Re-Board](#) offers honeycomb cardboard panels with fire certification, as well as matching screws and profiles. All FSC certified.
